Reference MM 02-14

MM 02-14 is about a request for allotment for Ketchum, Idaho 224A. I have no maps of Idaho, so I have no idea as to where it is. The map in the proposal indicates that Ketchum and Sun Valley are adjacent to each other. I just realized that MM 02-14 was not about Tooele and South Jordan, Utah. I just realized that the Tooele and South Jordan counterproposal has not been given a rule making number, I had received a copy of the counterproposal from Millcreek Broadcasting L. L. C., et al, and I just assumed that it was a counterproposal (and they had MM 02-14) to my petition for rule making that is now MM 02-166 for Salina, Utah.

While the FCC does allow it, I do not think that it is right to take rural stations, as Millcreek claims Tooele, Utah is, and move them into urban areas, as South Jordan, Utah is. Therefore I support MM 02-14 for Ketchum, Idaho as 224A, and oppose the counterproposal from Millcreek, et al. I am fighting the bad counterproposal, and not the Ketchum proposal.

This will be the last time that I make comments in MM 02-14. I apologize to those who have had to read my irrelevant comments.

Willison H. Gormly
